

ROMANTIC ROSE

Blooming this season are shades of burgundy and rose-gold powders. Shimmers are heavily placed on the inner half of the eye with transitions of rose-gold shadows swiped across the lid towards the outer corner and draped over the cheekbone. The ultra-romantic look is polished off with a rust or burnt sienna shade on the lip and well-defined lashes. A true romance between timeless and chic.

Colors may vary due to monitor settings and devices.
